February 1, 2016

Dear Valued Patrons,

In an effort to give our customers a clearer understanding of the AlamoDome renovation project, the following is a general overview of the initial phase of transformation.

- 1) Demolition of the North Exterior Plaza/Fountain and construction of the 24,000 sq' Media/Multipurpose Area
- 2) Expansion of the East & West Concourse Areas and construction of new concession and beer gardens

During this time, construction will begin from the glass entrance doors north towards our property line, (**drawing #1**). The north entrance glass doors will be completely obstructed with pedestrian paths re-directing patrons to entry points to the east/west/and south entrances, (**drawing # 2**).

The northeast/northwest box offices will be closed while southeast/southwest box offices will remain open for all events. The connector-walkway to the Henry B. Gonzales convention center will also remain open throughout the project.

Thank you for your continued support as we make improvements to our facility to better serve you and our many patrons.

Sincerely,

A handwritten signature in black ink, reading "Nicholas Langella".
